PERSONAL PROFILE

I am a highly motivated and skilled Android Developer and PHP Specialist with over 5 years of experience in the tech industry. As the founder of WikiTeq Solutions, I have successfully led numerous projects, delivering high-quality mobile and web applications. My expertise lies in Android development (Java) and PHP (CodeIgniter), with a proven track record in building high-performance, scalable, and secure applications. I am passionate about continuous learning and innovation, currently expanding my knowledge in Node.js and digital marketing. Seeking new remote opportunities, I aim to leverage my skills to build digital products that enhance users' lives while growing within a talented and innovative team.

OBJECTIVE

To leverage my 5+ years of experience in Android development and PHP (CodeIgniter) as a Senior Developer, aiming to contribute to innovative projects and expand my expertise in backend and mobile development. I seek to join a dynamic team in a remote role where I can apply my skills in building high-performance, scalable applications, while continuously learning and growing professionally.
